King Tiger Philosophy

We believe that every child is an individual who has his/her own rate of physical development and own pace of learning. Each child is accepted, loved, nurtured and taught as an individual with this thought in mind. We encourage and build each child's imagination, self-confidence and self-worth. We will provide activities in an environment that will nurture the child's self-image. Every child is guided with positive reinforcement in all activities, always encouraged to try and try again. Our main concern and goal in working with your child is to see that your child grows physically, intellectually, socially, and emotionally to the best of his/her ability.
